Self-Experience
-

Achievements/Tasks

- Working on some new projects to gain new experience in programming.

SKILLS

java php c++ HTML5 Dart Kotlin Flutter CSS Python Matlab Microsoft Office Linux

PERSONAL PROJECTS

Final Year Project (10/2020 - Present)
- The application uses Google maps as API and a GUI to benefit two kinds of users: those willing to have a drive and others willing to post bench availability to pick people up (Same as uber)

FootBall Player Rank Prediction (03/2020 - 06/2020)
- Machine learning project that predict football player rank based on multiple attributes including score matches, height, age,etc.

Face Recognition Attendance (09/2020 - Present)
- Artificial Intelligence project that recognizes faces so that it saves the total attending time through adding a time table for each attendee to CSV file.

Device Driver Using Kali Linux (04/2019 - 07/2019)
- The purpose behind the project was to build a Linux Driver which copies a buffer from the user space to the operating system space. It will then then read it back from the memory.
